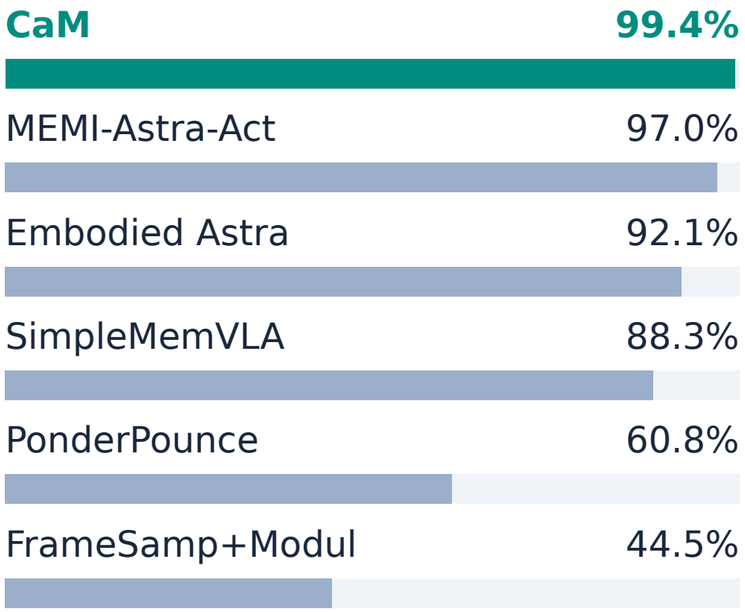
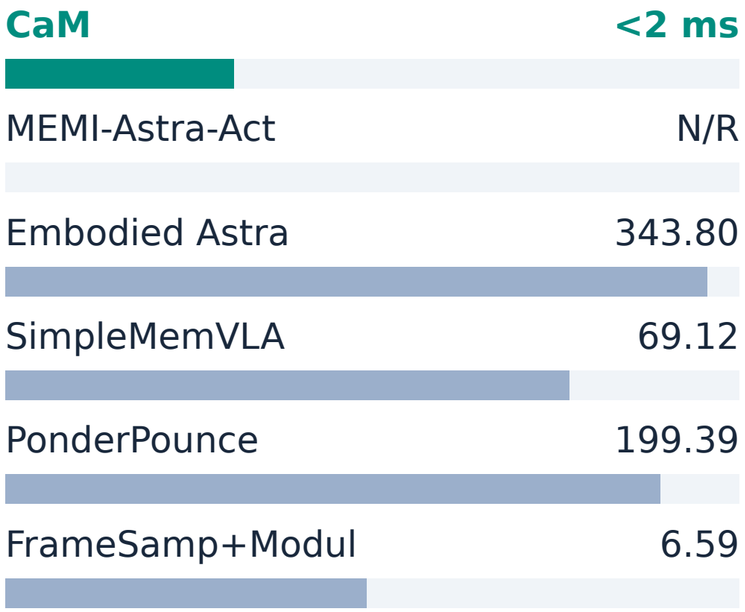
Success rate

Original RoboMME



Policy computation

Mean ms / control step · log scale



API cost (USD)

Development and evaluation separately

	Develop	Evaluate
CaM	**$29.44**	**$0**
MEMI-Astra-Act	N/R	$706
Embodied Astra	N/R	$310
SimpleMemVLA	N/R	$0
PonderPounce	N/R	$0
FrameSamp+Modul	N/R	$0

CaM timing: CPU replay, including action helpers. Baseline timing: RoboMME-Plus reference measurements.
API cost excludes local compute. N/R = not reported. Different hardware and evaluation protocols; see source notes.
